Presenter: Ron Crowden

Caption: Approve a request from the Utilities Department for two pickup trucks and one midsize SUV for Utilities-Engineering Division vehicles. Allan Vigil Ford Bid Item 18-183 and Bid Item 18-184.

Background: The Utilities-Engineering Division is requesting the acquisition of two Ford F150s for two recently hired engineering techs and one Ford Escape. Two employees of the Engineering Division took positions in Utilities-Facilities Maintenance Division and one employee transferred to Utilities-Fort Gordon. When they transferred they took their assigned vehicles leaving the Engineering Division short two trucks and one SUV. This was submitted with their budget submission in 2017 for 2018. These vehicles will be purchased using the GMA Lease Program (631). Bid tab sheets are attached for your review.

Analysis: The Procurement Department published a competitive bid using the Demand Star application for Compact SUV's and Pickup Truck 6,500GVWR with the following results: Bid 18-183 Compact SUV: 2018 Ford Escape - Allan Vigil Ford - \$25,296.00. Bid 18-184 Pickup Truck 6,500GVWR: 2018 Ford F150 - Allan Vigil Ford - \$29,316.00

Financial Impact: 1 – 2018 Ford Escape @ \$25,296.00 and 2 – 2018 Ford F150 @ \$29,316.00 each = \$58,632.00. The total purchase is \$83,928.00. These vehicles will be purchased through the Georgia Municipal Association lease-to-own program with 3 annual payments of \$27,976.00each. (ACT #: 631-10-1110-54-99631)

DATE: MAY 21, 2018

RE: COMMISSIONER M. WILLIAMS'S REQUEST

Pursuant to your request for HUD information, please find enclosed the following...

1. HUD Annual Allocation Expenditure Listing (last 5 years of Annual Action Plans)

- a. Remaining Balances reflect unexpended funds remaining from specific activities previously approved as part of the corresponding years' Annual Action Plans
- b. Remaining balances are encumbered by Augusta's HUD-approved Citizen Participation Plan, which requires a formal 'reprogramming' process to alter the Scope, Area, Location, Project Sponsor or intended Beneficiary of the previously approved activity. HUD instructs that substantial amendments to Action Plans provide information to citizens when programs are impacted by the reallocation of prior year funds, as HCD is striving to keep these occurrences to a minimum, and reconcile them through annual reprogramming processes moving forward
- c. All HUD grant funds are allocated on a Grant Based Accounting basis, and must be expended within a certain timeframe in which they were allocated to Augusta, GA (CDBG-7yrs, HOME-4yrs, HOPWA-3yrs, & ESG-2yrs)

2. Affordable Housing Activity Listings

- a. Listings show affordable housing units developed '17 & '18 w/ HUD funding ONLY
- b. Listings show partnerships with area Non Profits/CHDOs
- c. Listings do not include Laney Walker/Bethlehem housing units

Thanks and if you have any additional questions or concerns, please do not hesitate to give me a call at (706) 564-4203.

Update of Whitewater/Savannah River Design & Concept

Department: Procurement

Presenter: Geri Sams

Caption: Update of RFP 18-300 Whitewater/Savannah River Design & Concept.

Background: The Augusta, Georgia Commission at their meeting held on Tuesday, May 7, 2018 approved expedited, 15 day procurement process to procure a concept for a Whitewater Center to address a holistic approach for river recreational activities. The New Savannah River Bluff Lock and Dam was originally constructed in 1937 by the United States Army Corp of Engineers. The purpose of this structure was to facilitate commercial navigation on the upper reached of the Savannah River to serve the City of Augusta. The commercial shipping use of the lock ceased in 1979, and the structure fell into disrepair. As of today, the structure has been permanently closed by the Army Corps of Engineers, and is no longer available for passage. The dam serves as a water supply for Augusta, Georgia and its surrounding industries, as well as provides a source for water-related recreation activities. The Augusta Recreation and Parks Department maintains the area surrounding the lock in the New Savannah River Lock and Dam Park. With the involvement and guidance of the Army Corps of Engineers, Augusta seeks to make improvements for the lock and dam structure. Currently, the dam is proposed to be removed and replaced by a fixed structure or modified to allow for the passage of fish. The modified structure will allow the pool to be maintained for an upstream water supply and recreation. However, Augusta is exploring alternative uses for the structure that will comport with all federal, state, and local requirements.

Analysis: On Tuesday, May 22, 2018 the Procurement Department received two (2) compliant proposals. The vendors responding are McLaughlin Whitewater Design Group and Pond/S2O. We intend to expedite this project through the Augusta Commission approval process as quickly as possible once the project
